

Handheld Gadgets

Field Recording Slack

Sound Effects Library

87 Designers | 929 Files | 18.5 GB

This Summer, a team of 87 sound designers and recordists from around the world teamed up to make a SFX library of Handheld Gadgets. We've Created a giant library with 18.6gb and 929 sounds - over 12hr of continuous playback!

HOW DOES IT WORK?

As the Field Recording Slack has done periodically, we capture sounds that we want to share with the wider community while at the same time supporting some great causes.

So we are raising funds for 3 non-profit organizations. We're doing a unique system where 100% of donations go straight to charity.

In order to receive the library donate \$50 or more directly to one of the following organizations:

[Doctors Without Borders](#)
[World Central Kitchen](#)
and [The Water Project](#)

Once you've made a donation, they'll either email you a receipt or present the receipt to you on a web page.

You can either:

- Forward that email to frscharity@gmail.com

Or

- Take a screenshot showing the organization, email and donation amount to frscharity@gmail.com

The receipt contains your address and phone number, so if you're uncomfortable with sending any information on the receipt, you can scribble that out on a screenshot and send that instead. Just make sure the donation amount, email and date are showing.

Once we have received your receipt, we'll send a download link that expires in 7 days.

Please bear with us since the links are generated manually!

Looking for a facility license or have other questions? Please send an inquiry to frscharity@gmail.com
